SEARCH FOR KRUX COOKIES

## How to find Salesforce cookies

Please note: the following instructions are for Chrome only (on PC and Mac). For help with all other browsers, email **info@theprivacycollective.nl**

STEP ONE

Open a new tab in Chrome and paste the following into the search bar:
chrome://settings/siteData

Older versions of Chrome might use: **chrome://settings/cookies**

Settings – All cookies and site da ✕ ＋

SEARCH FOR KRUX COOKIES
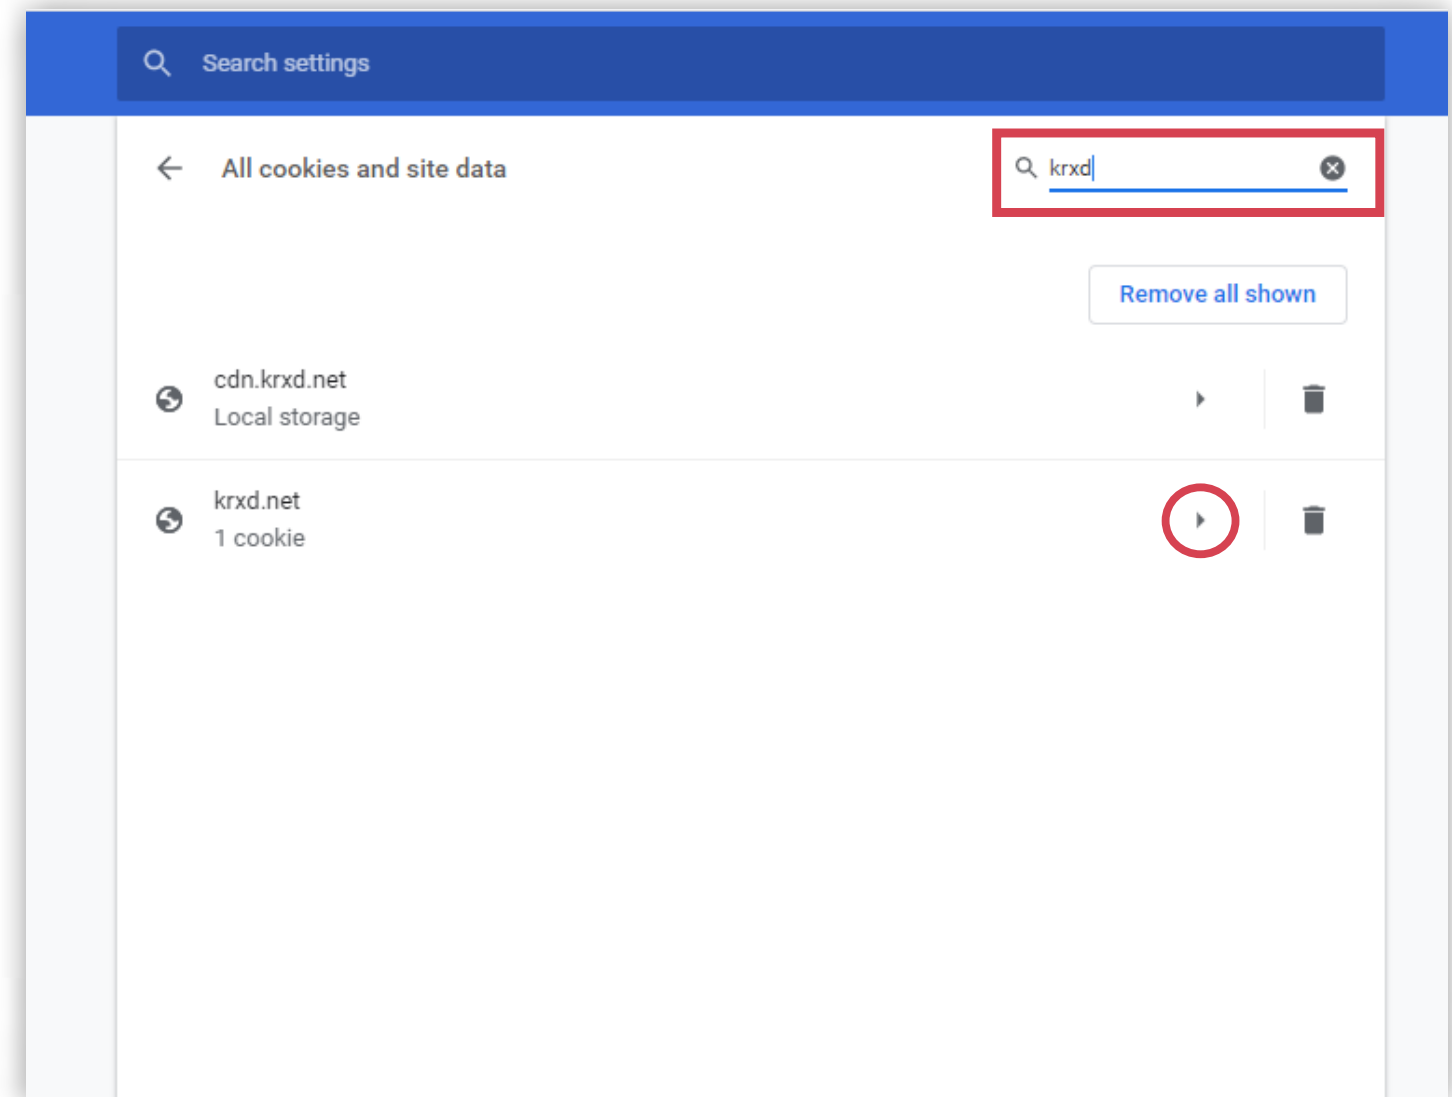

How to find Salesforce cookies

STEP TWO

In the **Search cookies** section type in **krxd**. Then take a screenshot

- On Windows take a screenshot by pressing together the Function
  key **Fn**, the Windows key ⊞, and the Print Screen button **PrtSc**

- On Mac take a screenshot by pressing together the **shift key**,
  cmd key and the number **3**

STEP THREE

Open the krxd.net cookies by clicking the **right arrow opposite krxd.net**

SEARCH FOR KRUX COOKIES

How to find Salesforce cookies

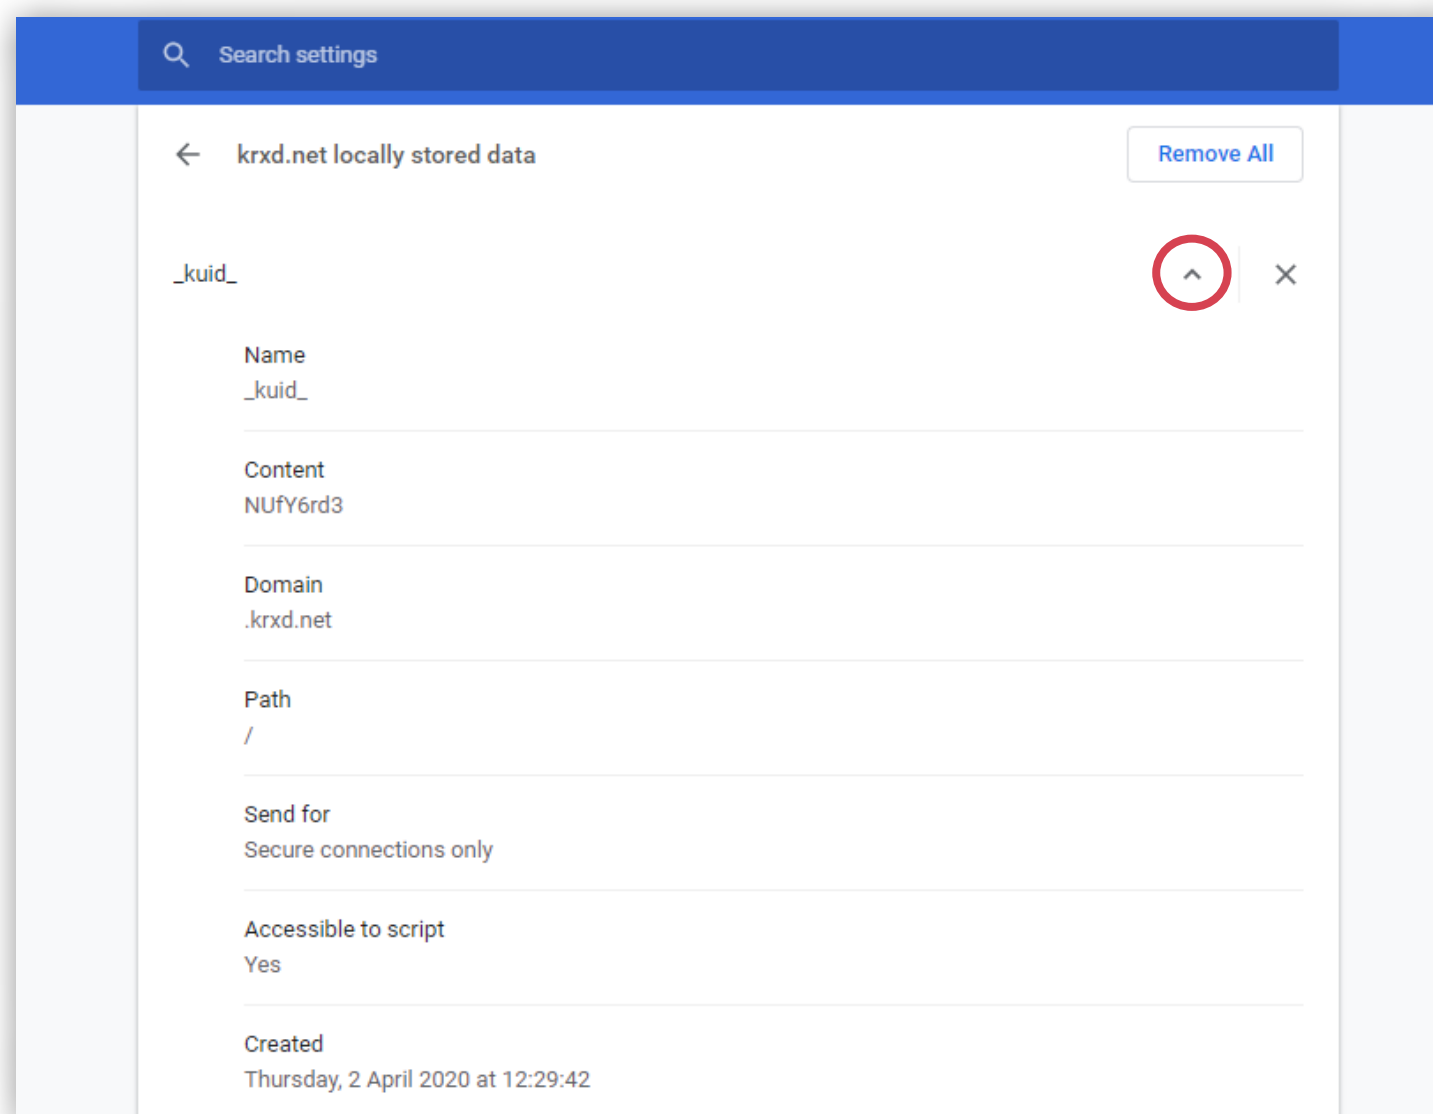

STEP FOUR

Click **the down arrow opposite the _kuid_ cookie**, then take another screenshot. There may be other cookies listed but it's the **_kuid_** one we're after. Once again:

- On Windows take a screenshot by pressing together the Function key **Fn**, the Windows key ⊞, and the Print Screen button **PrtSc**

- On Mac take a screenshot by pressing together the **shift key**, **cmd key** and the number **3**

STEP FIVE

Store your screenshots in a safe place.

- Windows screenshots are normally stored in **C:\Users\[your_name]\Pictures\Screenshots**

- Mac screenshots are normally saved automatically to **your desktop**
